

*Sub: We've been working on this for so long, and it's finally here. 🤔 / It's finally time, are you missing it? / Your muscles will thank you!*

Hey there,

You've probably seen our products before, so you know who we are and what we do... but today We're introducing something completely new, something designed to fix that little problem we've all experienced lately. 😊

Over the past year, people kept telling us: "If you only had this product, you would be perfect." So we took matters into our own hands and started working 💪.

And we created ✨**Nola**✨.

We already have creams and masks for every skin type: thick, light, exfoliating, moisturizing, collagen, hyaluronic acid... even makeup removal. But something was missing.

Helping your skin is great. Helping you relax is amazing. But what about recovering from a tough gym session, a long run, or if you feel as if your legs are heavier than normal 🤔?

That's exactly what Nola does. Whether it's for you or that friend who's gone all in on sports this year, It's designed to help your muscles feel more relaxed, reduce soreness, and speed up recovery, so you get better results, faster.

One massage and you'll feel the difference immediately.
